What can we expect from PEPFAR post COP22 Regional Planning Meetings?
Drafting COP22 Strategic Direction Summaries (SDS)

What can we do as activists?

What was decided during the virtual regional planning meetings is only the first step

Many details still have to be worked out including exact activities, budgets, areas of geographic focus, more

- Stay in touch with PEPFAR country teams, keep pushing for community priorities as they write the COP.
- Write to the PEPFAR country team and Chair asking for written feedback on recommendations you have submitted.
- Make it clear you want to review the narrative of the COP (known as the Strategic Direction Summary) as soon as a draft is ready.
COP22 SDS is shared for feedback

What can We do as Activists?

Draft SDS is required to be shared with CSOs 1 week before submission to Washington

Your input on this critical document is still required to be considered by PEPFAR headquarters in Washington.

- Read the SDS and suggest changes and additions by sending these in writing to your PEPFAR Country team, via tracked changes.
- If you have done a formal submission, you can just update this to note what has not been taken on board fully in the SDS (in tracked changes).
COP22 SDS are submitted to PEPFAR HQ

What can We do as Activists?

After COP submission, the work is not over. You can still influence by:

- Lobbying the PEPFAR team to make changes before the virtual COP approval.
- Coordinating with U.S.-based and global advocates to make sure PEPFAR Washington knows about further changes you still want. Remember OGAC is now reviewing the COP and changes may still be made.
Virtual COP22 Approvals

What can We do as Activists?

Acting U.S. Global AIDS Coordinator Dr. Angeli Achrekar will officially decide whether or not to sign and approve the COP. All approvals will be conducted virtually in 2022.

• We can write to the Dr. Achrekar and highlight concerns that may not have been addressed at the country level.

• We request to meet with Dr. Angeli virtually, and highlight these concerns.
What can we continue to do as activists now?

As we await the draft SDSs please request written responses to the People’s COP 22 demands, checklists and recommendations.

Review these written responses and respond to PEPFAR in writing or through a meetings with the PEPFAR teams.
